

SCOUTING GRADES

STRENGTHS

- Above-average overall pitch velocity at 92.6 mph.
- Generates frequent swings outside the strike zone with a 38.6% chase rate.
- Produces a strong overall swing-and-miss profile with a 25.5% whiff rate.
- Uses a deep 6-pitch mix, providing multiple velocity and movement bands.

PERFORMANCE SUMMARY

|              |               |            |
|--------------|---------------|------------|
| 64.7%        | 51.3%         | 25.5%      |
| Strike Rate  | Swing Rate    | Whiff Rate |
| 26.4%        | 36.9%         | 38.6%      |
| CSW Rate     | Zone Rate     | Chase Rate |
| 74.5%        | 37.8%         | .259       |
| Contact Rate | Hard-Hit Rate | xwOBA      |

DEVELOPMENT AREAS

- Below-average zone rate of 36.9% can create command-related risk.
- The profile depends heavily on hitters expanding outside the strike zone.
- The Sinker produces limited swing-and-miss at 7.2%.

## SCOUTING SUMMARY

Paul Skenes profiles as an above-average major-league starter with a deep 6-pitch arsenal. The overall profile includes 92.6 mph average velocity, a 36.9% zone rate, a 38.6% chase rate, a 37.8% hard-hit rate. The Changeup is the strongest bat-missing pitch, producing a 35.5% whiff rate. Command remains the primary area to monitor, but the quality and depth of the arsenal support continued starter value.
